

## Stay - Before the Picture Fades

Talisco

I can stay  
Can stay another night, I swear  
Stuck in time  
To live it up just one more time

I've wasted my might  
Can I come back to what I was before  
I wish I could go  
Can I come back to what I was before

I'll be there for love  
Something like that.. yeah  
For something so strong.. ooh

Love can make me weep  
Something like that.. yeah  
Something so strong.. ooh, ooh

Travel back  
Travel back and forth in time  
Just before  
Just before the picture fades

I've wasted my might  
Can I come back to what I was before  
I wish I could go  
Can I come back to what I was before

I'll be there for love  
Something like that.. yeah  
For something so strong.. ooh

Love can make me weep  
Something like that.. yeah  
Something so strong.. ooh, ooh

I'll be there for love

Something so strong.. for love, for love  
Something so strong.. for love, for love
