

# To You

Talisco

So beautiful in every way  
I'm telling you my baby  
Telling you my baby  
Always stay the way you are  
I'm telling you my baby  
Telling you my baby

I wanna see this more and more  
Look what you making me do

I gotta touch you now my baby  
I see your eyes on me so blue  
I gotta touch you now my baby  
I see your eyes on me so blue  
Oh away away away away away  
Come, come  
Oh away away away away away  
Come, come

I love the way you walk away  
I'm telling you my baby  
Telling you my baby  
But I really need to see you stay  
I'm telling you my baby  
Telling you my baby

Don't say no, no one never knows  
Look what you making me do

I gotta touch you now my baby  
I see your eyes on me so blue  
I gotta touch you now my baby  
I see your eyes on me so blue  
Oh away away away away away  
Come, come  
Oh away away away away away  
Come, come

Always always always  
Stay the way you are  
Always always always  
Stay the way you are  
Always always always  
Stay the way you are  
Always always always  
Stay the way you are

Oh away away away away away  
Come, come  
Oh away away away away away  
Come, come

Always always always  
Stay the way you are  
Always always always  
Stay the way you are  
Always always always

Stay the way you are  
Always always always  
Stay the way you are
