

Two Hands

Talisco

Lies for a life
Here for so long
Knees on the floor
And the head in shame

I got a love and a tear for you
A tear for you
I will get up in an other tomb
In an other tomb

No matter what I did with you
Give or take a tear or two
I take the blood in my two hands
Take the blood in my two hands
You should have seen the black arches
Crying the shame, crying the sin
Screaming bloody all the night
The mooning light saying goodnight

I got a love and a tear for you
A tear for you
I will get up in an other tomb
In an other tomb

I got a love and a tear for you
A tear for you
I will get up in an other tomb
In an other tomb

No matter what I did with you
Give or take a tear or two
I take the blood in my two hands
Take the blood in my two hands
You should have seen the black arches
Crying the shame, crying the sin
Screaming bloody all the night
The mooning light saying goodnight

No matter what I did with you
Give or take a tear or two
I take the blood in my two hands
Take the blood in my two hands
You should have seen the black arches
Crying the shame, crying the sin
Screaming bloody all the night
The mooning light saying goodnight

No matter what I did with you
Give or take a tear or two
I take the blood in my two hands
Take the blood in my two hands
You should have seen the black arches
Crying the shame, crying the sin
Screaming bloody all the night
The mooning light saying goodnight

No matter what I did with you

Give or take a tear or two
I take the blood in my two hands
Take the blood in my two hands
You should have seen the black arches
Crying the shame, crying the sin
Screaming bloody all the night
The mooning light saying goodnight

Lies for a life
Here for so long
I take the blood in my two hands
Take the blood in my two hands

Knees on the floor
Head in shame
I take the blood in my two hands
Take the blood in my two hands
