

## All + All

Talisman

She makes me feel like i did b4, the day i 1st learned of  
love,  
A simpler time when r reckless lives displayed youth  
Every lesson of love we share,  
I dream we can hold on 2gether, i will always cherish the  
faith  
That you've enlightened me with your touch  
All & all she's s everything i want,  
I'm gonna say it again, all & all she's everything i want  
I talked 2 my best friend the other day,  
He said "i've never seen u with so much light in your  
eyes"  
Well, i must admit, ha, i can't believe i made it this  
far  
Without her,  
I'll tell u y again all & all she's everything i want,  
I'm gonna say it again, all & all she's everything i want  
  
Enchantment all around me, i swear,  
There's no way i'm ever gonna let her go  
  
Like all the seasons here gone, everchangin' coloured  
emotions,  
They seem 2 lead us thru lustrous fields of gold,  
All & all she's everything i want,  
I'm gonna say it again, all
