

# Falling

Talisman

Where were U on the day I fell down from the sky?  
I thought U were the 1 that would not pass me by

Blind, lost & all alone  
And I'm just pretending 2 know all the lessons yet 2  
learn  
Y, it feels like vertigo  
And it seems the spotlight is fading, can't hold on I'm  
falling, falling

Where are U now that I've become a common man?  
Fame surreal, always desecrates the master plan

Time, slipping through your soul  
Enter all the reasons I know, I'm beyond resurrection  
Y, it feels like vertigo  
And it seems the spotlight is fading, can't hold on I'm  
falling, falling

Blind, lost & all alone  
And I'm just pretending 2 know all the lessons yet 2  
learn  
Y, it feels like vertigo  
And it seems the spotlight is fading, can't hold on I'm  
falling, falling
