

Forevermore

Talisman

I can't believe it's been 15 years
Seems like mere days since you've gone
I know you're doing well, I feel you found your peace
Cuz we're still singing here the praises of your style

Chorus:

Thru space and time, we keep alive the world you created
you gave us love, you gave us song, you left us faded
you left some heaven for everyone
Tears of joy cry to you forevermore

So many things that were left unsaid
So many faces disappeared
But there's no more pain my friend, you fin'llly spread
your wings
We'll revel in the memories you left us all these years

Chorus x3
