Talisman

Guided by instincts u just can't control, animal logic  
Suppressing your soul, a penchant for cruelty, desire  
for  
Blood,  
Sensing weakness, u r merciless  
A civilized surface, a savage underneath,  
Turn out the lights u can't keep it in,  
The only beast who wants more than she needs, never  
satisfied,  
Always driven by greed  
U r the predator, the prey, u r what u eat,  
U r a human animal

In your solar system u r the star,  
So easy 2 hate when u don't know who u r,  
Conflicting emotions 'bout the colour of their skin,  
Goodbye now, it's a war you'll never win

U r a liar, a deceiver, the victor in this charade, u r  
a human  
Animal

Computerize the future, it won't save us,  
In the end, virtual reality is not the key 2 the  
universe,  
We got 2 learn 2 x-ist 2gether, it's the only way (2x),  
Love is the way, the only way

(instrumental music by fa, mj, jb)

Everyone tries 2 make sense out of chaos,  
Got 2 get a grip on this cold world,  
So u say u believe in god,  
It's a poor x-cuse 4 not believing in yourself  
(c no evil, hear no evil, fear no evil)

Pretending 2 live by some virtuous code,  
When your "clothes" don't fit, u throw them away,  
Creating an illusion of immortality,  
Goodbye now, u were born 2 die

U r a sinner, a saviour,  
U bear the mark of cain, u r a human animal
