

If U Would Only Be My Friend

Talisman

Same old story, but in my own words
It's just pain and misery
Cause that's all i am, just another man
Begging for sympathy
Sometimes i say to myself
That i'm dreaming, that nobody cares any more
But now i've got to believe that someday soon
I'll find someone worth waiting for

Chorus:

If you would only, be my friend,
I would love you till the end
And thru good times and bad times too,
I'll stand by you, till the end

I once knew love but it's in her past
Why do good things never last
It's so hard to find the loss
I feel inside, god only knows i've tried

But now i've got to move on
There's no turning back,
Can't live on memories
So here i am getting down on my knees
Somebody save me please

Chorus

Just like an angel who's fallen out of grace
God don't seem to hear me calling
Sometimes i feel like i'm the only one here,
Is there anybody out there? yeah!

Here i am another lonely man,
Begging for sympathy
One day i know i'll find someone,
Someone who believes in me
