

Raindrop

Tall Heights

Let me know when we should go and I'll go get my car
And I'll drop you at the airport, no it's not that far
I don't wanna get closer than we are... than we are

I can tell you want glory that you're gonna get
In my dream I keep on floating down the watershed
And I know we're getting closer
But we're not there yet... not there yet

I'll be the raindrop, and come down
Flow over the middle into the end
We'll make the rain stop. Come down!
How can we begin there?
I'll be a friend

And you're weary eyed and broken by a new goodbye
Doing nothing wrong, I'm hoping for an alibi
I can see you're on a journey of a tidal wave
So come down into this solace, let it get away

And be the raindrop. Come down
Flow over the middle into the end
And make the rain stop
And come down
How can we begin there?

There's enough about tomorrow that we know today
To come down into this sorrow in another way
And who knows what will be waiting, so let it get away

Let it get away
Let it get away
Let it get away

Be the raindrop
And come down
Flow over the middle into the end
We'll make the rain stop
Calm down
'Cause someone else is in there
I'll be a friend
