Talos

A week in the whiteness
Bound up by all of it
See in my blindness
You keep the tides of us all
You promised me islands
Promised me all of it
Now swept up in silence
You keep the tides of us all
Weak in the wildness talking through times of us
Feeding the violence
You keep the tides of us all

A week in the whiteness
Bound up by all of it
See in my blindness
You keep the tides of us all
You promised me islands
Promised me all of it
Now swept up in silence
You keep the tides of us all
Weak in the wildness talking through times of us
Feeding the violence
You keep the tides of us all
