Firespeak

Talos

Wide eyes reach along the signs
For weeks, like Novas undefined
Then I was warded off your coast
For a season, we're bound to feel alone

If you cover up, ease me
Firespeak
Now the crater I'm feeding
Corners me

For a time, we watched
The nights collapse in the fight
With steel souls
And as it stood, I fought
The feeling wiled onto me
The waters on

If you cover up, ease me
Firespeak
Now the crater I'm feeding
Corners me

And the times that I cawed
Fool

It's for the ones that I love
You
And the times that I cawed
Fool
