

## Head-up

Talos

We hauled our waste where none could see  
Fumbled love but kept its calling  
And at the lake, we found belief  
But drowned warnings

They laid out carnage at the wedding feast  
Held us tight until the morning  
Dried our bones, then danced with ease  
'Til nights clawed in

Head-up  
Into night  
We summoned the light to cut us down  
Head-up  
With you  
To silence it, darling

Climb against the lines of colors  
Find the wind and seek the sun against the squall  
I won't be near while waters flood up  
'Round us

Head-up  
Into night  
We summoned the light to cut us down  
Head-up  
With you  
To silence it, darling

To silence it, darling  
Ah, silence it, darling  
I left the lie on  
Our fear divides  
You held me right up high  
Ah, keep us climbing  
And running wild  
We soar as the morning light

Head-up  
Into night  
We summoned the light to cut us down  
Head-up  
With you  
To silence it, darling  
Head-up  
Into night  
We summoned the light to cut us down  
Head-up  
With you  
To silence it, darling

Ahh, oh, silence it, darling  
Ahh, oh, silence it, darling
