

# Odyssey

Talos

Unloosen the sky  
And suffer the sights  
Then you walked out in raging water  
An offer that's died  
What use in the white endless sight  
Indy I was always here to warn you

In this odyssey  
It's hard to leave  
I hold at the breach  
I've got my reasons

In this odyssey  
It's hard to leave  
I hold at the breach  
I've got my reasons

I wake to your likeness  
But how come you're here?  
I wasn't found in delight  
It's the call before it's far from over  
Our temples are hearts  
But then heaven alee  
Heavy the final force  
And I was downed in dying water  
And I was downed in

In this odyssey  
It's hard to leave  
I hold at the breach  
I've got my reasons

In this odyssey  
It's hard to leave  
I hold at the breach  
I've got my reasons  
(I'm cast out in the cold)

Now I'm wading water  
Then I'm cast out in the cold  
Fading right, just once, we know  
Now I'm wading water  
Then I'm in the boiling snow  
Heave that light off of you love

Now I'm wading water  
Then I'm cast out in the cold  
Fading right, just once, we know  
Now I'm wading water  
Then I'm in the boiling snow  
Heave that light off of you love

In this odyssey  
It's hard to leave  
I hold at the breach  
I've got my reasons  
(I'm cast out in the cold)

In this odyssey it's hard to leave  
I hold at the breach  
I've got my reasons  
(I'm cast out in the cold)
