

# See Me

Talos

Some days I wake up  
And I just want you all around me  
Some nights I call out  
What if the life in you lost me?  
The weight of the world feels  
The weight of the world it feels heartless  
Forever we fade out  
'Cause I'm too afraid to be honest

Why am I so cynical?  
Lifelines are difficult  
For me

In my whole life  
There's silence where I stood  
I found you in the lone light  
Never knew it felt this good  
Won't you teach me how to see  
The way you see me

Alive in the snowed pines  
The fire is waiting around me  
Your freedom is all mine  
The deep and the dark are aligning

Why am I so cynical?  
Lifelines are difficult

In my whole life  
There's silence where I stood  
I found you in the lone light  
Never knew it felt this good  
Won't you teach me how to see  
The way you see me

Wake up in the worn night  
I fill you with a love then a silence  
I was in the cold tide  
See you when the sight is burning down  
Hold me near and I will steal  
The solid ground

In my whole life  
There's silence where I stood  
I found you in the lone light  
Never knew it felt this good  
Won't you teach me how to see  
The way you see me

It's taken up my whole life  
The silence where I stood  
I found you in the lone light  
Never knew it felt this good  
Won't you teach me how to see  
The way you see me
