

Venice

Talos

For weeks
I watered the sun
To keep a cove of comet lines below
I watered the sun

When we sleep
The day catches up
I was fraught defiled on foreign isles
I cooled the caiman
And I watched him wade in
Oh I watered the sun

And love
I watered the sun
To calm the kaisers love of lightning
If we wake up we'll solve it

For weeks
This incapable cull
I watched the scene
It terrorized
We dropped the bombs in overnight
You stalk the mountain

Oh I watered the sun
Oh I water the sun
Oh I watered the sun
Oh I water the sun
