

## Voices

Talos

Hear the voices  
Coming closer  
I hear the voices  
Coming close to me  
I hear the horses  
Over water  
I hear the whisper of an  
Ancient sea

Either now we live  
Or we won't  
We are ghosts on islands  
Either now we live  
Or we don't

I hear your voice  
It's coming closer  
I hear your voice  
It's coming close to me  
I hear the horses over water  
I hear the whisper  
Of your cavalry

Either now we live  
Or we won't  
We are ghosts on islands  
Either now we live  
Or we don't

We move the earth  
To harness that high  
And darkened mess  
And the void did light up in us  
We woke like Gods  
All seeing a tethered call  
And you left  
And the void was all that there was

I hear your voice  
It's coming closer  
I hear your voice  
It's coming close to me  
I hear the horses over water  
I hear the whisper  
Of your cavalry

I hear your voices  
Coming closer  
I hear your voices  
Coming close to me  
I hear the horses  
Over water  
I hear the whisper  
Of your cavalry
