

# Angels & Demons

Tamar Braxton

Calling all lovers  
Calling all lovers  
And women and men all around  
The world

Can't see straight  
It's getting way too dark  
I'm still leaping  
Catch me boy  
I'm falling in love  
Now that my heart is vibing  
I wanna give my all away  
But I'm always reminded  
Of all the villains in the way

Cause love ain't love if  
You don't let it shoot you down  
Baby tell me what are we

Is it up  
Is it down  
Cause I'm standing in the middle  
(Angels, please protect my love)  
Is it war  
Cause our love has angels and demons  
(Baby tried to steal my love)  
Please don't runaway with my love  
(Angels, please protect my love)  
My love  
Please don't runaway with my love  
My love

Can't think straight  
Your love us bringing me down  
I'm still singing  
Not about to let us drown  
Now that my heart is vibing  
I wanna give it all away  
But I'm always reminded  
Of all villains in the way

Cause love ain't love if  
You don't let it shoot you down  
Baby tell me what are we

Is it up  
Is it down  
Cause I'm standing in the middle  
(Angels, please protect my love)  
Is it war  
Cause our love has angels and demons  
(Baby tried to steal my love)  
Please don't runaway with my love  
(Angels, please protect my love)  
My love  
Please don't runaway with my love  
My love

We're saints  
And we're sinners  
We're losers  
We're winners  
For love  
We end then  
Begin at the end  
Just to end back in love  
(I said)

Cause love ain't love if  
You don't let it shoot you down  
Baby tell me what are

Is it up  
Is it down  
Cause I'm standing in the middle  
(Angels, please protect my love)  
Is it war  
Cause our love has angels and demons  
(Baby tried to steal my love)  
Please don't runaway with my love  
(Angels, please protect my love)  
My love  
Please don't runaway with my love  
My love
