

# My Man

Tamar Braxton

Boy you let me down  
I am so confused  
I stood right by your side through everything that you went through  
Why is she around?  
Why are you so cruel?  
How could you just turn your back when I stood by you?

When you were broke I didn't leave you  
Somehow through it all I believed in you  
No, no, no not my man  
Cause he would never hurt me (Not my man)  
Let alone just desert me (Not my man)  
No, no, no not my man

Word around town  
Is that you live with her  
And you said she took your heart away, oh baby  
I told them that's a lie  
Cause I don't wanna hear no bullshit stories 'bout my man

Can't stop the screaming and yelling (Oh no no I'll pass)  
No I just can't believe that you're with her  
Is she the one you played me for? (My man)  
Shoulda noticed it the day she walked in the door (My man)  
I just can't believe she stole my man  
Not my man (oh yeah)  
She walked right in the door, looked me in the face and she took my man (Not my man, no, no, not my man)  
Never trust a lonely woman with the one you love (Not my man)  
She ate dinner at my table, even watched my kids and she took my man (Not my man, no, no, not my man)  
Bitch acting like she was my friend  
She called me about her man, but I didn't understand  
She was talking 'bout my man, heifer  
My man, my man, my man (Not my man)

Is this my life?  
It cuts me like a knife  
To know the one I loved could leave me for a friend  
I'm not desperate, but I would reconsider (Baby I ain't sorry)  
All the years I put in this thing to be a winner  
But I know it's too late, she took my man  
(Not my man)  
See I was just a fool, didn't wanna see the truth and she took my man (Not my man, no, no, not my man)  
And my heart screams out loud  
Oh oh ohhh oh  
(Not my man)  
(Not my man)  
(Not my man, no, no, not my man)  
Oh oh ohhh oh  
(Not my man)  
(Not my man)  
(Not my man, no, no, not my man)
