

No Gift

Tamar Braxton

Hurry, it's Christmas Eve
Dear Santa I have what I need
In his sleigh, ooh I can't wait
Hear me games out angel
Will it be the one that I know
Wrapped in a bow
Ooh I hope so
There's gifts that shine
Gifts that wind
One so big that it just can't be mine
Everything's all mine this year except for one thing

Under the tree there's a million things
From toys for the children to diamond rigs
Everyone's smiling outside is snow
I'd rather be under the mistletoe
If you were me
You'd think I wouldn't want anything
But to tell the truth
That won't do, cause gift compares to you

Sunrise, today is the day
Will he be waiting for me
With good cheer
I've been good all year
I'll be so full of joy
Once I hear his voice
Santa please get it right
Or Christmas will see me cry

There's gifts that wind
Gifts that shine
One so big that it just can't be mine
Every evening is here, except from one

Under the tree there's a million things
From toys for the children to diamond rigs
Everyone exciting, and smiling in snow
I rather be under the mistletoe
If you were me
You'd think I wouldn't want anything
But to tell the truth
That won't do
Cause no gift compares to you

The silent night wouldn't be right
If I didn't have my baby by my side
If there is anything, I will do anything
He's all I need
Any old gift won't suffice if you're not here tonight

Under the tree there's a million things
From toys for the children to diamond rings
Everyone's smiling, outside is snow
I'd rather be kissing mistletoe
If you were me
You would think I wouldn't want anything
