Safer

Tamar Braxton

You gave me forever
In just a short time
I miss us being together
If I was in front of you
I would cross your mind

Yeah

You make me wanna press rewind
And start over with you again
'Cause every moment with you feels like
Something beautiful
That I don't want to ever end

Oh no

Shield me from heartache
Make me awake
Taste the cake
No birthday
Hold me up
Guide me down
Enjoy my body
Never will drown
Love up on me
Gon' air it out
See for yourself
No word of mouth
So good
Guide me, baby

I feel safer beside you
Still alive if the world was to end
I feel safer beside you
I surrender, baby take me in

Put me on like a sweater
When we're skin to skin
I now realize nobody treated me better
Than you did
When I reminisce

You make me wanna press rewind
And start over with you again
'Cause every moment with you feels like
Something beautiful
That I don't want to ever end

Oh no

Shield me from heartache
Make me awake
Taste the cake
No birthday
Hold me up
Guide me down
Enjoy my body

Never will drown
Love up on me
Gon' air it out
See for yourself
No word of mouth
So good
Guide me, baby

I feel safer beside you
Still alive if the world was to end
I feel safer beside you
I surrender, baby take me in
I'm safer beside you
In you I know I can depend
I'm safer beside you
You make me believe in love again

I will always hold on
I feel no pain when I'm with you
Baby I know you gon' do everything you said
I can tell you not here to play
Swear you got a way
With me

There's no place I'd rather be
Than right beside you

Still alive if the world was to end
I feel safer beside you
I surrender, baby take me in
I'm safer beside you
In you I know I can depend
I'm safer beside you
You make me believe in love
