Why do they say they don't know what's right for me?
Hang in, I know what's right for me

Why do they say they don't know what's right for me?
Hang in, I know what's right for me

I know what's right
I know what's right
I know what's right for me

I know what's right
I know what's right
I know what's right for me
For me

I know what's right for me
I know what's right for me
I know what's right for me
I know what's right for me
