

Conqueror

Tamela Mann

I'm more, I'm more than a conqueror
I'm more, I'm more than a conqueror
Yeah
Everything that was holding me down
Has only made me stronger now
I'm more, I'm more than a conqueror
Lift your voice and sing

I'm more, I'm more than a conqueror
I'm more, I'm more than a conqueror
(Everything, yeah)
Everything that was holding me down
Is only making me stronger now
I'm more, I'm more than a conqueror

Fighting through the night
Feeling like I've lost this battle
Tears in my eyes
Reaching up my hands to heaven
You know what I need, oh God
Even though the words escape me
The battle's already won
The battle's already won
'Cause You have the final say
And we have the victory

I'm more than a conqueror
I'm more, I'm more than a conqueror
I'm more, I'm more than a conqueror
(I know that)
Everything that was holding me down
Is only making me stronger now
I'm more, I'm more than a conqueror

I know the days are getting darker
Feels like it's more than you can handle
This life will bring you to your knees
But that's the safest place to be
You've been under pressure with a broken heart
You've been trying to fight these battles on your own
And the nights don't seem like they're ending
You're used up and you feel like you're empty

But in all these things, we overwhelmingly
Conquer through the One who loves us
The one who loves us

We are conquerors
(Yes we are, we're more than conquerors)
We are conquerors
(I can do all things through Jesus)
(Oh yeah)
We are conquerors
(God saved this man, yes He did)
We are conquerors

(I'm more, more)

We are more than a conqueror
(More than a conqueror)
We always will, yeah, in Jesus
(I'm more, more)
I am victorious
(More than a conqueror)
We're more than a conqueror

But in all these things, we overwhelmingly
Conquer through the One who loves us
I'm more than a conqueror
