Finished Work

Tamela Mann

When You say it's already done
When You step in, the battle is won
There is no question or need to worry
It's already finished

When You start moving, everything changes
When You come through, nothing stays the same
There is no doubting, or need to wonder
It's already finished

I put my hope in You
If You touch it, it's a finished work
When You heal it, it's a finished work
Before it all started, You had the answers
It's already finished

When I was hurting
You made me a promise that You'll stay here
And never leave my side
That's why I'll trust You, now and forever
It's already finished

I put my hope in you
I put my hope in you
If You touch it, it's a finished work
(When you're healing, Lord)

When you're healing, it's a finished work
Before it all started (Before it all started)
You had the answers (You already had the answers)

If You touch it, it's a finished work
When You heal it, it's finished work
You've become of who you all you can be Lord, yeah
Before it all started
You had the answer
Before it all started
You had the answer

Everything You start has an expected end
It's finished
As I bow on my knees I see Your plan for me
It's finished
Everything You start has an expected end
It's finished
As I bow on my knees I see Your plan for me
It's finished

No need to worry, it's finished
No need to cry, it's finished
All I need, It's finished
(I need you, Lord) it's finished
(You have the answers) It's finished
(And it's already done) it's finished
(You have a plan for me) it's finished
(You already worked it out)
Finished (It's finished)

```
It's finished
(Yes it is) finished
It's finished
(It's already done) finished
(They hung Him high) It's finished
(Stretched Him wide) finished
(For me) it's finished
(Hung His head and He died) Finished
(He said, it's finished) it's finished
Yes it is, finished

I'm more than a conqueror, it's finished
(Yes I am) finished
It's finished (Yes it is)
Finished
I believe it's a finished work (Yes it is)
Working in my favor, working in my favor
```
