

Send Me

Tamela Mann

I thought I really knew what I was here to do
But the road that I chose had no consent from you
I tried to hide from your will knowing what you had in-store for me
You said you would give me (blessing and prosperity)
How could I disagree ohhh...

Send me I'll go
I will do your will
I don't wanna make another move without you
I just wanna be what you plan for me to be
I don't wanna move, make a move without you

So now I've changed my way knowing that you never lead me a stray
For your word is my voice
I'll follow you any day
Send me, I will go
Please tell me what to say
I won't be led by man but by your perfect plan

Send me I'll go
I will do your will
I don't wanna make another move without you
I just wanna be what you plan for me to be
I don't wanna move, make a move without you

It's crazy, I'll do what you want me to I surrender my will and my life to y
ou go where you want me to, say what you want me to
Got to be in your will
I'll never, never ever be the same
So glad I made (the change) glad I made
Since that day my life has changed
Go where you want me to, say what you want me to

Send me I'll go
I will do your will
I don't wanna make another move without you
I just wanna be what you plan for me to be
I don't wanna move, make a move without you

It's crazy, I'll do what you want me to I surrender my will and my life to y
ou say what you want me to
Got to be in your will
I'll never, never ever be the same
So glad I made (the change) glad I made
Since that day my life has changed
Go where you want me to, say what you want me to

Send me I'll go
I will do your will
I don't wanna make another move without you
I just wanna be what you plan for me to be
I don't wanna move, make a move without you
