

# Send Me

Tamela Mann

I thought I really knew what I was here to do  
But the road that I chose had no consent from you  
I tried to hide from your will knowing what you had in-store for me  
You said you would give me (blessing and prosperity)  
How could I disagree ohhh...

Send me I'll go  
I will do your will  
I don't wanna make another move without you  
I just wanna be what you plan for me to be  
I don't wanna move, make a move without you

So now I've changed my way knowing that you never lead me a stray  
For your word is my voice  
I'll follow you any day  
Send me, I will go  
Please tell me what to say  
I won't be led by man but by your perfect plan

Send me I'll go  
I will do your will  
I don't wanna make another move without you  
I just wanna be what you plan for me to be  
I don't wanna move, make a move without you

It's crazy, I'll do what you want me to I surrender my will and my life to you  
Go where you want me to, say what you want me to  
Got to be in your will  
I'll never, never ever be the same  
So glad I made (the change) glad I made  
Since that day my life has changed  
Go where you want me to, say what you want me to

Send me I'll go  
I will do your will  
I don't wanna make another move without you  
I just wanna be what you plan for me to be  
I don't wanna move, make a move without you

It's crazy, I'll do what you want me to I surrender my will and my life to you  
Say what you want me to  
Got to be in your will  
I'll never, never ever be the same  
So glad I made (the change) glad I made  
Since that day my life has changed  
Go where you want me to, say what you want me to

Send me I'll go  
I will do your will  
I don't wanna make another move without you  
I just wanna be what you plan for me to be  
I don't wanna move, make a move without you
