

# Still Do

Tamela Mann

Ever since the first time I saw you  
I knew that you and me would do about 50  
60 of 'em  
Now you carry my last name  
Look at the mess we made  
Our little baby's havin' babies now  
Granddaddy give me a dollar  
She has your face so I gotta

Now I can't say  
That every day  
Has been perfect  
We've had our share of ups and downs  
Sometimes we've even wanted out

But we stayed still  
Strong and still  
I love you still  
As we take these vows again  
I still do

For better or worst I (still do)  
In sickness and health I (still do)  
As the days go by I fall deeper into you  
Yes I still do  
Forsakin' all other I (still do)  
Obey and compromise (still do)  
As we stand here renewing in front of our family  
Yes I still do

Said you know when and when not  
The best friend that I've got  
Everything about you is my favorite (part)  
You got my (heart)  
When we're a-(part)  
I go through breakdowns  
Still the finest woman in the world  
You're the reason I'm living my girl  
The only one better than you is in heaven

Now I can't say  
Every day  
Has been perfect  
We've had our share of ups and downs  
Sometimes we've even wanted out

But we stayed still  
Strong and still  
I love you still  
We've had our share of ups and downs  
Sometimes we've even wanted out

For better or worst I (still do)  
In sickness and health I (still do)  
As the days go by I fall deeper into you  
Yes I still do  
Forsakin' all other I (still do)

Obey and compromise (still do)  
As we stand here renewing in front of our family  
Yes I still do

(Still do)
