

Working For Me

Tamela Mann

I must do His will
Daytime's now but nighttime's coming
Slow and weak but still
Until the end I'll keep on running

Only blinded eyes can see
All that he has done for me
On his promises I'll stand

I will live my life
Like a blind man

I can't see it, I can't see it
But I still believe, I believe that
It's working out for me
It gets better with time
He never fails to blow my mind
It's working out for me

You will live again
Your best days are coming
And they are not far
Keep your light shining bright
And don't you ever forget who you are

I will live my life
Like a blind man

I can't see it, I can't see it
But I still believe, I believe that
It's working out for me
It gets better with time
God will blow your mind
It's working out for me

I believe it is
Working for me
It's working for me
It's working for me
He loves me
He'll never leave me
He's working with me
He'll never fail
He is working for me

Working for me
Working for me
Working for me
Working for me
Working for me
Working for me
Working for me

He's working, He's working
He's working, He's working
He's working, He's working
He's working, He's working

Working for me
Working for me
