

You

Tamela Mann

Don't you take it, no
Take your love away from me
Don't you take it, no
Take your love away from me
Oh-oh-oh-oh
Don't you take it
No, no, no, no

You are the apple of my eye
Can't even imagine my life without you
There's be no stars to line my sky
When we're together I feel so brand new

When the world all around is changin'
You're the one I can always lean into, yeah baby
I could do without a lot of things
But it's your love I'd never wanna lose
'Cause everything that I am is all because of

You
Can't no one love me like you do
No one can

You looked beyond all of my flaws
And loved me back to life like no one else could
Helped me restore my faith in love
I have no doubt that you're the one I prayed for 'cause

When the world all around is changin'
You're the one I can always lean into, yeah baby
I can do without a lot of things but
It's your love I'd never wanna lose
'Cause everything that I am is all because of

You
Can't no one love me like you do
No one can

Just keep loving me, loving me, loving me
Don't stop loving me, loving me, loving me
Don't stop loving me, loving me, loving me
Like you do

Just keep loving me, loving me, loving me
Don't stop loving me, loving me, loving me
Don't stop loving me, loving me, loving me
'Cause everything that I am is all because of

You, ooh baby
Never wanna lose
Can't no one love me like you do
Oh, baby
No one can
