

# Better

Tamia

Slow down, you can't catch me  
There's so many things that I wanna see  
The first thing is the way that you love me  
I tried to show it to you  
In the things I do for you  
Thinking that you will love me  
The way that I love you

There's another way  
To get the things you want from me  
Things you need from me  
There's another way, mmh, mmh

I'm the producer  
Just give me a love song  
Give me your heartbeat  
I'll make it better  
I'm a natural lover  
Just give me some attention  
I don't have to mention

And I can give it back to you, yeah  
Bigger than you gave it to me  
Baby please, I can make you complete  
Like a house to a home  
I can make it better  
I can make it better  
I can make it better

I like how you hold me  
You're pulling me closer  
And that's how you show me  
Feel the same way too  
Then act like you know me  
'Cause I know we  
Can take this to another level

There's another way  
To get the things you want from me  
Things you need from me  
There's another way, mmh, mmh

I'm the producer  
Just give me a love song  
Give me your heartbeat  
I'll make it better  
I'm a natural lover  
Just give me some attention  
I don't have to mention

And I can give it back to you, yeah  
Bigger than you gave it to me  
Baby please, I can make you complete  
Like a house to a home  
I can make it...

Baby you walk in the truth

But it all depends on you  
I know in my heart that it's true  
I believe in you  
You

Give it back to you, yeah  
Bigger than you gave it to me  
Baby please, I can make you complete  
Like a house to a home  
I can make it better  
Bigger than you gave it to me  
Baby please, I can make you complete  
Like a house to a home  
I can make it better
