Each Time

Tamino

On this precious evening, quiet and still
Pale stars shine upon a bed of dark red flowers
It suits them like it suits us

It's where I start believing in a world for me
An atmosphere still enveloped by young love
And all that it moves by

It's there you'll find me, stretched out in the fields
Hope you don't mind me, staying where I please

To seal this beauty
It ain't real till it's sure
Let me feel the thrill of it
Each time again

By a kind deceiving I am shown only what is pure
How can it endure, how can it last some more

In this perfect circle, I've come to know the face of my defeat
It's always worth repeating
Somehow it is worth it

It's there you'll find me, stretched out in the fields
Hope you don't mind me, staying where I please

To seal this beauty
It ain't real till it's sure
Let me feel the thrill of it
Each time again

How, how can it endure
How can I just make it last some more

To seal this beauty
It ain't real till it's sure
Let me feel the thrill of it
Each time again
