

Do Me Like That

Tammy Rivera

You'll be talkin' with your hands, talkin' with your hands, don't you
Got me changin' all my plans, got me changin' all my plans for you
Last week I put you out but you still hit, how'd you do that?
Yeah you broke my heart but you broke me off
Now I'm taking you back

All night long, smell you in my pillow
All night long, I think of your hands on my waist, yeah
I know what you're here for
Here to break whatever's in your way

Oh baby please
Don't do me that, don't do me that no more
You should leave
I'm in my nightgown, we should take it slow
Baby please
Don't do me that, don't do me that no more
I should be mad at you but I can't stay mad
When you do me like that

You do something to my head, something to my head, don't you
Chills be runnin' down my legs, runnin' to the bed for you
A big part of me knows that I should just leave
Heavy talkin' heart but you know I'm soft, soft on you baby

All night long, smell you in my pillow
All night long, I think of your hands on my waist, yeah
I know what you're here for
Here to break whatever's in your way

Oh baby please
Don't do me that, don't do me that no more
You should leave
I'm in my nightgown, we should take it slow
Baby please
Don't do me that, don't do me that no more
I should be mad at you but I can't stay mad
When you do me like that

When you do me like that
When you do me like that
I should be mad at you but I can't stay mad
When you do me like that

Baby please
Don't do me that, don't do me that no more
You should leave
I'm in my nightgown, we should take it slow
Baby please
Don't do me that, don't do me that no more
I should be mad at you but I can't stay mad
When you do me like that

When you do me like that
When you do me like that
