

One Step Away

Tammy Rivera

One step away from never coming back home again
Oh, you done did it baby
One step away from never coming back home again
Oh, you done did it baby
I can't fix myself this time
Look, you done pushed me 'cross the line, one step away
One step away from never coming back home again

I'm mixed up, I'm twisted, angry
This distance, don't know how it makes me feel
It's getting way too real
I'm happy, I'm mad, I'm sad
You can't blame me, these are the cards that you're dealt
Where's your chill?
How'd you push me off the edge so far, this is so hard, oh baby

One step away from never coming back home again
Oh, you done did it baby
One step away from never coming back home again
Oh, you done did it baby
I can't fix myself this time
Look, you done pushed me 'cross the line, one step away
One step away from never coming back home again

I'm screamin', I'm quiet, love has no meaning
My feelings can't be revealed, I wonder if they will
I'm locked up, I'm free, I'm brave, I'm so scared baby
I'm hurt 'cause I love you still, I love you still
How'd you push me off the edge so far, this is so hard, oh baby

One step away from never coming back home again
Oh, you done did it baby
One step away from never coming back home again
Oh, you done did it baby
I can't fix myself this time
Look, you done pushed me 'cross the line, one step away
One step away from never coming back home again
