

You Did This

Tammy Rivera

So tell me why you gone when you should be here
So tell me why you gone when you should be here
So tell me why you gone when you should be here
You did this to us, oh yeah you did it
You did this to us, oh yeah you did it
You did this to us, oh yeah you did it
So tell me why you gone when you should be here
So tell me why you gone when you should be

Don't ask me why I won't call you back
Don't tell me you miss me baby
My voicemail's empty but I heard all of that
The whole time you was with me baby

Too many lies, too many secrets
Your alibi, boy you can keep it
Always in and out of the airports
I'm just another thing you ain't there for, yeah yeah yeah

So tell me why you gone when you should be here
So tell me why you gone when you should be here
So tell me why you gone when you should be here
You did this to us, oh yeah you did it
You did this to us, oh yeah you did it
You did this to us, oh yeah you did it
So tell me why you gone when you should be here
So tell me why you gone when you should be

Don't tag my friends on the internet
'Cause that shit might get tricky baby
No sneak dissin', I ain't in to that
I care about same way when you was with me baby

But there were too many lies, too many secrets
Your alibi, boy you can keep it
Always in and out of the airports
I'm just another thing you ain't there for, yeah yeah yeah

So tell me why you gone when you should be here
So tell me why you gone when you should be here
So tell me why you gone when you should be here
You did this to us, oh yeah you did it
You did this to us, oh yeah you did it
You did this to us, oh yeah you did it
So tell me why you gone when you should be here
So tell me why you gone when you should be
