

On The Run

Tamta

You say I'm not there
You leave, there's no air
You say I don't care
Don't leave, I can't bear

On the run, I can't stay too late
I'm not going out like you say
Always working hard, you know that
I'm on the run
Long ago, you found out one day
I would stop just so you can stay
Always working hard, you know that
I'm on the run

On the run, I can't stay too late
I'm not going out like you say
Long ago, you found out one day
I would stop just so you can stay

On the run, I can't stay too late
I'm not going out like you say
Long ago, you found out one day
I would stop just so you can stay

You think I'm not there
You go while I stare
You think I don't care
You go, there's no air

On the run, I can't stay too late
I'm not going out like you say
Always working hard, you know that
I'm on the run
Long ago, you found out one day
I would stop just so you can stay
Always working hard, you know that
I'm on the run

On the run, I can't stay too late
I'm not going out like you say
Long ago, you found out one day
I would stop just so you can stay

On the run, I can't stay too late
I'm not going out like you say
Always working hard, you know that
I'm on the run
Long ago, you found out one day
I would stop just so you can stay
Always working hard, you know that
I'm on the run
