

Come and taste my lips, make my world spin 'round  
I get in a mood when the Sun goes down  
Let's play out of bounds  
Come drown in my sound  
Can you dig it? Let's paint the town

I know, you know you take me far  
Loving you is so bizarre  
I end up seeing all my stars  
Black Gold

Baby you're the best in show  
I'm wanting everyone to know, I got you and I won't let go  
Black Gold  
Black Gold

Red ink on my tips as we fly through time  
You're my favourite trip  
Baby blow my mind

Get lost in these hips  
Grab a tighter grip  
Take off on my ship, you guide

Boy you got me whipped  
Swear you stripped of my heart  
And I don't mind

I know, you know you take me far  
Loving you is so bizarre  
I end up seeing all my stars  
Black Gold

Baby you're the best in show  
I'm wanting everyone to know, I got you and I won't let go  
Black Gold
