

# Nothing Without You

TANERÉLLE

I've been chasing the moon and the stars  
'Cause I've been trying to be where you are  
Could it be that I'm searching too hard?  
I wish you'd come and find me  
Won't you come and find me?

'Cause I'm down when you're far away, yah  
When you're gone I don't sleep for days, ah  
I've been stuck in the darkest age, ah  
Can't you see what I'm tryna say?

I'm nothing without you  
I'm nothing without you  
I'm nothing without you  
I'm nothing without you  
You're my missing piece  
I don't wanna live without ya  
You're my missing piece  
I don't feel at home without ya  
'Cause I'm nothing without you

I've been running away from the sun  
A girl obsessed when it's all said and done  
'Cause they can't tell me that you're not the one  
So baby, come and find me  
You need to come and find me

'Cause I'm down when you're far away, yah  
When you're gone I don't sleep for days, ah  
I've been stuck in the darkest age, ah  
Can't you see what I'm tryna say?

I'm nothing without you  
I'm nothing without you  
I'm nothing without you  
I'm nothing without you  
You're my missing piece  
I don't wanna live without ya  
You're my missing piece  
I don't feel at home without ya  
'Cause I'm nothing without you

I've been chasing the moon  
And chasing the moon  
And chasing the moon and the stars  
'Cause I'm trying to be where you  
Trying to be where you  
Trying to be where you are  
Chasing the moon  
And chasing the moon  
And chasing the moon and the stars  
'Cause I'm nothing without you
