TANERÉLLE

I like it in this world of you  
Here, the moon's up at noon  
Free to do what we do  
I like me from your point of view  
Feelin' more free, more new  
Feelin' more me, more true

So baby, come closer  
I want you all over me  
No need for composure  
We're right where we're supposed to be  
So let it spill over  
It's only right on a night like this  
I know you've never had it quite like this  
But I feel it every time we kiss

I want it like  
You, you  
Me, me  
You, me, you  
I need it like  
You, you  
Me, me  
You, me, you

It's feelin' like  
Like your hands in the air  
And you're betting it all on me  
Like your hands in my hair  
At the end of a long, long week  
I know we've waited for perfect time  
I know it's sacred, I know it's mine  
We've been so patient, now we're aligned

So baby, come closer  
I want you all over me  
No need for composure  
We're right where we're supposed to be  
So let it spill over  
It's only right on a night like this  
I know you've never had it quite like this  
But I feel it every time we kiss

I want it like  
You, you  
Me, me  
You, me, you  
I need it like  
You, you  
Me, me  
You, me, you

It's feelin' like  
You, you  
Me, me  
You, me, you  
I need it like

You, you  
Me, me  
You, me, you

It's feelin' like
