

Luke Combs

Tanner Adell

My record collection got me here expecting
A little more than I should, yeah, real life just ain't that good
Coming through the speakers, love always sounds sweeter
I've realized and I'm learning those verses can't be perfect

But forever after all don't ever come along
As often as it does on the radio
Oh, and just for the record
Sometimes better together ain't always how the story's gonna go
But everytime he's singing
My country heart still wants to be the girl in a Luke Combs song

I'd have someone singing 'bout how he's missing me
How he's wrapped around my finger
'Cause the kind of love we make
Would get us through a hurricane
Any kind of storm, any pouring rain
Oh, I hear it every single day

But forever after all don't ever come along
As often as it does on the radio
Oh, and just for the record
Sometimes better together ain't always how the story's gonna go
But everytime he's singing
My country heart still wants to be the girl in a Luke Combs song

Forever ain't ever as easy as it sounds
When he's singing it on the radio
And just for the record
Sometimes better together ain't always how the story's gonna go
, oh
But everytime he's singing
My country heart still wants to be the girl in a Luke Combs song
