

# Whiskey Blues

Tanner Adell

Wish that I can pour my heart right down the kitchen sink  
I wish that I can care a whole lot less 'bout what you think  
I know that I been skating on the edge and on the brink  
Floater, I ain't sober, I came here to overthink

'Cause I been layin' on them different sheets just trying to get over you  
Been hanging at ya favorite bar till a quarter past 2  
You got me thinking of ya drinking 'cause ya love is overproof  
I got a bad case of the whiskey blues

I got a bad case of the whiskey blues  
I got a bad case of the whiskey blue...

Heard that you been telling everybody that I'm a psycho  
Heard that you, you blame my mental health but that's a lie, though  
Heard that you, you went and bought yourself a motorcycle  
Keep pretending that I'm mad, you're still on my mind, though

'Cause I been layin' on them different sheets just trying to get over you  
Been hanging at ya favorite bar till a quarter past 2  
You got me thinking of ya drinking 'cause ya love is overproof  
I got a bad case of the whiskey blues

I got a bad case of the whiskey blues  
I got a bad case of the whiskey blues

Time, take care of these feelings, got me tied up  
Ooh-whoa  
I should hate you but I can't make my mind up  
I can't make my mind up

'Cause I been layin' on them different sheets just trying to get over you  
Been hanging at ya favorite bar till a quarter past 2  
You got me thinking of ya drinking 'cause ya love is overproof  
I got a bad case of the whiskey blues

I got a bad case of the whiskey blues  
I got a bad case of the whiskey blues
