

Black Widow

Tanner Usrey

Well I heard you found a new man
I bet he tastes me on your lips
And when he's touching you
He still feels me on your skin

Well I like the games you play
And I like the things you do
Well I ain't in your web no more
Baby, I ain't your fool

Black widow
Black widow
Spin me around in your web
And if I stay here I'll end up dead
Black widow

Chew me up, spit me out
It's all the same to me
Well I don't give a damn no more I just got to get some sleep
Late nights and cheap lies and all the things we did
Keep playing that fiddle girl and I'm going to keep moving it

Black widow
Black widow
Spin me around in your web
And if I stay here I'll end up dead
Black widow

Poisonous and dangerous
Got lightning in your veins
Doctor's orders don't believe a word you say
There's still some things that I just can't erase
It's all your fault girl and you can lay in the bed you made

Black widow
Black widow
Spin me around in your web
And if I stay here I'll end up dead

Black widow
Black widow
