

Long Haired Stranger

Tanner Usrey

Long haired stranger, won't you tell me where to go?
I got lost somewhere on this road
I lost my mind and I lost my soul
Long haired stranger, won't you tell me where to go?

Long haired stranger, won't you tell me where I've been?
I guess I lost almost all of my friends
I know it now but didn't know it then
Long haired stranger, won't you tell me where I've been?

Take my hand, lead me through the fire
I was told you would know my heart's desires
Tell me that this is all part of my plan
That I wasn't dealt someone else's hand
Long haired stranger, is this part of my plan?

Long haired strange, I'm calling out to you
You'd know why with the hell you've put me through
And I just need to know what I should do
So long haired stranger, I'm calling out to you

Take my hand, lead me through the fire
I was told you would know my heart's desires
Tell me that this is all part of my plan
That I wasn't dealt someone else's hand
Long haired stranger, is this part of my plan?

Long haired stranger, I'm down on my knees
Praying to you, O God, O God, please
Long haired stranger, don't you dare forget about me?
'Cause long haired stranger, I'm down on my knees

Take my hand, lead me through the fire
I was told you would know my heart's desires
Take my hand, won't you take me higher
They told me you would know my heart's desires
Tell me that this is all part of my plan
That I wasn't dealt someone else's hand
Long haired stranger, is this part of my plan?
Long haired stranger, is this part of my plan?
