Before You Could Crawl

Tantric

Before you sleep I'm not afraid to say it
Get down on and pray the lord to keep
You're safe in his arms, a bigger power
That has gotta better side of me

That you can't disarm, & you can't unharm
Come on baby, get along and ride with me

Before you can crawl
Baby I'm just saying it but I just might've seen it all
I've taken the fall girl
Maybe it is my turn to receive unconditional love

God knows I can take, every mistake
Every ounce of hurt in your bones I've made
I make them my own so that you could feel free
Baby be a part of me

That you can't disarm, & you can't unharm
Come on baby, get along and ride with me

Before you can crawl
Baby I'm just saying it but I just might've seen it all
I've taken the fall girl
Maybe it is my turn, to receive unconditional love
