

Compound

Tantric

Well, life is gonna scare you down
It's gonna make you think all around

Oh, I can never accept the solution
Thinking that you're better off dead
This isn't easy for anyone to miss
So why put a bullet in your head?

Why don't you get down off your ledge
This isn't the way that you should be living your life in the end
You should be livin' instead
Don't separate your life from your head

Don't you think about yourself
And end up the blind side
Everyone will see your wealth
And end up the blind side
With a pen and pad is how I solve my problems
That's how I even solve them
That's how I will resolve them
That's good enough for me

You solve all your problems
From the comfort of your seat
This is how we'll solve them
In the light is how we'll meet

Oh, I can never accept the solution
Thinking that you're better off dead
This isn't easy for anyone to miss
So why put a bullet in your head?

Why don't you get down off your ledge
This isn't the way that you should be living your life in the end
You should be livin' instead
Don't separate your life from your head

Don't you think about yourself
And end up the blind side
Everyone will see your wealth
And end up the blind side
When the pen and the pad is how I'll solve my problems
That's how I even solve them
That's how I will resolve them
That's good enough for me

Well, that's good enough for me
Yeah

Don't you think about yourself
And end up the blind side
Everyone will see your wealth
And end up the blind side
With a pen and pad is how I solve my problems
That's how I even solve them
That's how I will resolve them
That's good enough for me

That's good enough for me
Well, that's good enough for me
That's good enough for me
