

## Fault

Tantric

"Fault"

I dreamt of you again last night  
It felt so real this time.  
And I miss you.  
If that's the only way to make you mine,  
And I'd sleep forever just to see you.  
'Cause I don't wanna miss you anymore.  
I gave it all when you walked out the door.

Look into your eyes but I can't see you  
Fallen for your lies but I don't believe you  
Well I just want things like they were before  
Caught me by surprise, I don't wanna hate you  
Don't like what I see but I know I made you  
And I just want you like you were before you met me.

Well my story's the same but it won't change  
Life will rearrange us ain't it just like us  
The more you try to change the more things stay the same  
Who is to blame?  
There's no one but us  
'Cause I don't wanna miss you anymore  
I gave it all when you walked out the door.

Look into your eyes but I can't see you  
Fallen for your lies but I don't believe you  
Well I just want things like they were before  
Caught me by surprise, I don't wanna hate you  
Don't like what I see but I know I made you  
And I just want you like you were before you met me.

Look into your eyes but I can't see you  
Fallen for your lies but I don't believe you  
Well I just want things like they were before  
Caught me by surprise, I don't wanna hate you  
Don't like what I see but I know I made you  
And I just want you like you were before when I met you babe.

Look into your eyes but I can't see you  
Fallen for your lies but I don't believe you  
Well I just want things like they were before  
Caught me by surprise, I don't wanna hate you  
Don't like what I see but I know I made you  
And I just want you like you were before you met me.
