Get Em All

Tantric

This can definitely be a difficult time
For people who have personal business
That hasn't been properly worked through

I played around I cannot fall
And line up together in my town, it's fine
My self-respect is nothing more
I heard a sound, just like a call can make me feel better
They tell me I'm blind I got my ear up to the wall

And I drive around
A trigger effect taken for dead
And I, I played around
Your bullets are so, bullets are so slow

There's no way to go, it's no way to go
Stand up, fall down, go on down, & get em all now
There's no way to go, it's no way to go
Stand up, fall down, go on down, & get em all now
I can't be wrong
Getting along a lifetime together
In my state of mind
There's no regrets without a cause

And I drive around
A trigger effect taken for dead
And I, I played around
Your bullets are so, bullets are so slow
There's no way to go, it's no way to go
Stand up, fall down, go on down, & get em all now
There's no way to go, it's no way to go
Stand up, fall down, go on down, & get em all now
Can't tell, can't please, can't find
Liberty is more than I'm used to
I like to kill, but not enuff
To save you from your own demise
There's no way to go, it's no way to go
Stand up, fall down, go on down, & get em all now
There's no way to go, it's no way to go
Stand up, fall down, go on down, & get em all now
There's no way to go, it's no way to go
