

Walk That Way

Tantric

Pushing just to push and feel some other thing
Something that needs to be nearer
Close in and feeling it clearer
Closer even closer than I shiver to think
I see a way to get under
A way to feel and I wonder

Closer, even closer
It's all I ever do
Slower, take it slower
Until I'm done with you

Hey, walk that way
Two can play that game
Hey, walk that way
Aren't we all to blame?

Seeker, I'm the seeker of the sum of all things
You see the closer I'm getting, I see the lady is shedding
Weaker, even weaker than I thought it should be
Well, I'll play the cards that I'm holding
I hold the hand that you're folding

Closer, even closer
It's all I ever do
Slower, take it slower
Until I'm done with you

Hey, walk that way
Two can play that game
Hey, walk that way
Aren't we all to blame?

In desperate times
I need a sign
Give it to me
Just walk that way
I'll fall in line
So close behind
Give it to me
Just walk that way

Hey, walk that way
Two can play that game
Hey, walk that way
Aren't we all to blame?

Hey, walk that way
Two can play that game
Hey, walk that way
Aren't we all to blame?
