

Badaboom

Tapes 'n Tapes

Man, you are the madness in my ear
I'll be alone tonight and I'll be in the clear
Take me for a night I said, take me for a year
I'll be your ear, my dear

When I go and when my heart is right
It's up and over and over every night
I call you up to [?]
I've been holding near,
You're here, my dear

Up and over and over every night
I call you up and hold me on the flight
I'll be your up-stock cowboy
I've been holding near,
You're here, my dear
You're here, my dear

When the night is over and the time's a come
I hold you for the matter I've been holding from
I call you up and oh, I hide my sorrows near
You're here, my dear
You're here, my dear
You're here
