

Nightfall

Tapes 'n Tapes

We fall like night fall
I want you still with me
Don't come back
Don't back splash
Cause the silence is killing me
Times come for us both
The run is not worth the time
It's a waste of time
Holidays on the eighth of may
Will loose any time
I loose the time
And I'll go on away for a sun
And don't
Oh don't
Ride back
The left track
You'll never leave me be
No holidays
No weekend stays
No conversations place
Not tonight
When you said all your lies
I won't wait for the lie
I'm not looking for lies
You'll believe it's all honestly
I got nothing to hide
There's nothing to hide
Look for a sign
When you're better alive
Cause you're loosing
You are loosing
Go on and see you cry at night
No one will hear you call
No one go in for a sun
And no one can see
No one go in for a sun
And no one can see
No one go in for a sun
And no one can see
No one go in for a sun
And no one can see
No one go in for a sun
And no one can see
