

1 Nite Stand

Taproot

ive come to grips on reality
through fatality
realized just how much happiness brings to me
fight
lately doubt and worries inflicted my mind with an illness of e
go
the worst of it's kind
been so busy unhappy
un nerved
i can see my destiny is chasing me
I am finally happy and ready to go
I had a one nite stand with myself last night
the fright of a lifetime
once again i have proven my strength to myself
on my own
