

Favourite Song

Taproot

Cause I don't even know the lyrics to my favourite song
Every time I seem to sing along (hey oh)
La di da da da da da

You've got the rhythm just right
To turn my darkness to light
Bury my echos cry
No need to hear what's to say
You'll sing my song anyway
Take a chance to make it last
You make me want to dance that I can't
Even if I never see through the lines or hear what's behind

Cause I don't even know the lyrics to my favourite song
Every time I seem to sing along (hey oh)
La di da da da da da
In this world nothing seems to smile for free (hey oh)
Your music always does the trick for me

You're not the mind reading type
But know just how to blow mine
Your melody is so tight

Cause I don't even know the lyrics to my favourite song
Every time I seem to sing along (hey oh)
La di da da da da da
In this world nothing seems to smile for free (hey oh)
Your music always does the trick for me

See all the tricks I tried had affects and lied about results and side effects
What about the time you lose when they ride you hard and leave you old and dead?
Forget about the sadness, no saddle in an all out sprint
Dig in with your nails and your heels, better never lose your grip, oh
But it's all about the sadness, forget about the sadness
Dig in with your nails and your heels, better never lose your grip, oh

(Hey oh)

Cause I don't even know the genre to my favourite song
Every time I seem to sing along (hey oh)
La di da da da da da
In this world nothing seems to smile for free (hey oh)
Your music always does the trick for me
Favourite song
Every time I seem to sing along (hey oh)
La di ba da dah
In this world nothing seems to smile for free (hey oh)
Your music always does the trick for me
